HWS 900 RAINBOW

General indications

- Standard alloy wire usable on all wire EDM machines
- Improvement of the automatic threading capability thanks to its good straightness

Technical characteristics:

- Alloy: Brass, Cu 63% Zn 37%
- Diameter tolerance: 0 / -0.001 mm
- Elongation: < 2%
- Tensile strength: 900 N / mm²
- Conductivity: 26% IACS

Compliance:

- We certify that the wire is checked and complies with the technical specifications and declared tolerances.
